rothkamm's **FBO1** investigates the realms of pure electronic music; synthesized only through mathematical operations on sine waves, the most fundamental building blocks of sound. **FBO1** was recorded in Hollywood and manufactured in a limited edition of 500.

rothkamm -- New York composer, performer and computer programmer, also known under 8 pseudonyms. He is the founder of Flux Records, a hermetic label for avant-tech styles, and designer of the data processing instrument system IFORMM - deployed since the summer of 2002 for the realization of pure electronic music.
